

Thermo Fisher Scientific Announces Collaboration with Ortho Clinical Diagnostics

Exclusive agreement to provide Thermo Scientific MAS Quality Controls for VITROS Analyzers

FREMONT, Calif., July 7, 2021 /PRNewswire/ -- Thermo Fisher Scientific, the world leader in serving science, today announced a collaboration with Ortho Clinical Diagnostics to promote and distribute [Thermo Scientific MAS Quality Controls](#) and [LabLink xL Quality Assurance Software](#) for use with Ortho Clinical Diagnostics VITROS analyzers.

Through this agreement, Ortho Clinical Diagnostics customers will have complete access to MAS third-party quality controls as well as the LabLink xL web-based quality assurance program that provides real-time quality control monitoring with automatic data entry upload and audit-friendly reports. Customers will also have access to additional features, including support, service and quality control ranges for specific reagent lots, unique features that are not currently available through any other quality control program.

"Our MAS Quality Control products help clinical laboratories maximize productivity with market-leading consolidation of control material, shelf-life stability longer than industry standard and open vial stability that reduces the cost and time required for recalibrating new lots," said Tina Liedtky, president of clinical diagnostics for Thermo Fisher Scientific. "Our continued goal is to provide better efficiency and consolidation of quality controls for laboratories utilizing our MAS solutions to reduce hands-on time, while providing consistent results."
